FACULTY OF MEDICINE

23RD ANNUAL

BC ENDOCRINE DAY

May 10th 2024 | 8 AM | Vancouver Holiday-Inn
Centre (Broadway)

www.endocrineresearchsociety.com/conferences

COURSE DESCRIPTION

This full-day lecture series offers an interactive case-based review of common endocrine problems encountered in clinical office practice. Open to general practitioners, internists, specialists, trainees, and allied health professionals. A variety of endocrine health topics and disorders will be reviewed including osteoporosis, PCOS management, and gestational diabetes mellitus guidelines; male hypogonadism; sellar lesions; breast cancer risk with hormone replacement therapy; and thyroid tests.

COURSE OBJECTIVES

Upon completion of the program, participants will be able to:

- 1) Describe at least one key endocrine clinical solution, learning point or next step in therapy for each topic presented.
- 2) Be able to demonstrate updated knowledge of new concepts and technology for diagnosis and treatment for endocrine patients encountered in office practice.
- 3) Outline how you may employ these new clinical skills, technology & treatment options for improving your patient's care.

This activity is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, and approved by UBC CPD. This one-credit-per-hour Group Learning program meets the certification criteria of the College of Family Physicians of Canada and has been certified by UBC CPD for up to 6.25 Mainpro+® credits.

COURSE PLANNING COMMITTEE
